

X-TRA LIFE FILTER BAGS

(POXL & PEXL)

X-TRA Life filter bags utilize state-of-the-art needling technology providing outstanding filtration performance in a variety of applications. Our polyester and polypropylene *X-TRA Life* materials utilize a proprietary fiber blend configuration to create a media that is heavier, thicker and stronger than standard felted media. This formulation delivers enhanced efficiencies, without increasing initial differential pressure. Both the *POXL* and *PEXL* bags are ideal for removing gels, irregular shaped particles in liquid streams with a wide particle size distribution. *X-TRA Life* filter bags are available in designs that comply with both FDA and EC requirements for Food and Beverage contact.

FEATURES & BENEFITS

- Field tests are verifying that our *POXL* and *PEXL* filters last an average of 2 to 4 times longer than conventional bags
- Reduced operating costs due to fewer bag changeouts
- Reduced labor costs associated with fewer bag changes
- Reduced disposal cost
- Increased productivity due to staying online longer between changeouts
- Thermally treated fabric finish which virtually eliminates the possibility of fiber migration
- Fully welded construction utilizing our **Sure-Weld** technology is standard on *POXL* bags

APPLICATIONS

General Chemical
 Produced water from
 Gas drilling
 Process Water
 Food and Beverage
 Paints and Coatings

The
STRAINRITE
 Companies
 World Class Filtration

ORDERING INFORMATION

MATERIAL	MICRON RATING	FINISH	SIZE	RING	OPTIONS
ex. POXL	10	S	2	P	WE
POXL - Polypropylene	1	S - Thermal Treated	1 - 7" x 16"	S - Carbon Steel	HS - Handle
Extended Life Felt	5	P - Plain	2 - 7" x 30.5"	SS - Stainless Steel	Strap
PEXL - Polyester	10	N - Nylon Mesh Cover		P - Polypro Flange	WE- Fully
Extended Life Felt	25			PR - Polypro Ring	Welded
